CELMAR

**CELMAR FENCING & PAVERS** - Welcome to our world!

A family business that has been in operation for over 45 years! We have since grown to be the

## **LARGEST MANUFACTURER OF PRECAST CONCRETE WALLS IN AFRICA.**

All our material is manufactured to be the best on the market. We use state of the art technology and focus heavily on strength, durability, consistency and quality.

Along with our precast concrete panels, we also produce concrete pavers, garden products, lawn edgings and municipal/building products of various shapes and sizes.

We manufacture our own steel moulds for internal use with our state of the art wet-cast machine. This machine can produce approximately 2500 slabs a day and to our knowledge, is the only one in the whole of Africa.

RIVEN

---

AVALON

A photograph of a garden scene. In the foreground, a wicker basket is filled with vibrant red roses. The basket is placed on a bed of green grass. A curved, light-colored stone border separates the grass from a paved area. The text "REFRESH YOUR GARDEN" is overlaid on the image in a bold, white, sans-serif font. The word "REFRESH" is in a light green color, while "YOUR GARDEN" is in white.

# WEED GUARD

- KEY FEATURES:
- PREVENTS WEED GROWTH
  - NOT HARMFUL TO THE ENVIRONMENT
  - HIGH RESISTANCE TO EXTREME WEATHER CONDITIONS
  - UV RESISTANT
  - PERMEABLE
  - 100% RECYCLABLE

Until recently, the only two ways to control weed growth has been with plastic sheeting or chemicals that were often harmful to the environment or the plants themselves.

The disadvantage of plastic sheeting is that it does not withstand windy or rainy conditions for very long and requires constant maintenance and replacement. Also, it is not permeable, causing water build-up (ponding) on top of the plastic, and encouraging mould and root rot underneath.

While the woven fabric allows free passage of water and air, it's tight weave and total cover largely prevents evaporation and thus large-scale water loss after irrigation or rains in hot climates.

CODE	DESCRIPTION	SIZE (M)
P91A	WEED GUARD	3M
P91B	WEED GUARD	1M

# BUILDING PRODUCTS

---

We understand the demand and needs of the building industry, and therefore supply products of exceptional quality and strength to assist builders in their service to their clients.
